GENERAL SERVICES ADMINISTRATION

Washington 25, D. C.

September 29, 1959

Honorable Allen W. Dulles
Director
Central Intelligence Agency
Washington 25, D. C.

Dear Mr. Dulles:

On September 9 a meeting was held with [redacted] of your agency and members of my staff concerning the operation, maintenance, protection, repair, and related utilities service for the new headquarters building for your agency at Langley, Virginia. Previous discussions were also held in this connection with Mr. James A. Garrison of your agency in August, 1958 at which time it was determined that General Services Administration would perform the above services upon completion of the new headquarters building.

As completion is presently scheduled for July, 1961, this Administration will request in its 1962 fiscal year budget estimates the necessary funds to perform the required operation, maintenance and related services on a direct appropriation basis.

If you concur in this proposal, it is requested that you sign the attached copy of this letter and return it to this office at your earliest convenience.

Sincerely yours

/s/
Franklin Floete
Administrator

Honorable Franklin Floete
Administrator
General Services Administration
Washington 25, D. C.

Dear Mr. Floete:

I have your letter of September 29, 1959, concerning discussions between representatives of our agencies with regard to the operation, maintenance, protection, repair and related utilities service for our new headquarters building at Langley, Virginia.

It is our desire that your Administration obtain annual appropriations and perform these services upon completion of the building. In this connection we assume that your operation of the building will also include maintenance of grounds, roads and parking areas. The utilities which should be provided under contracts executed by the General Services Administration include electricity, water and sewage disposal. Telephone service is not included in the above as the Central Intelligence Agency will assume responsibility for budgeting and contracting for this utility.

Enclosed is a copy of your September 29, 1959, letter which I have signed in accordance with your request.

Sincerely,

Allen W. Dulles
Director
